

MNK Additional FAQs
September 9, 2022

- Q1. An NAS Claimant is deceased, and died before he/she could receive a Social Security Number. The estate of the Claimant is otherwise eligible to participate in the Settlement. Is the Claimant's estate able to participate in the Settlement?
- A. We believe that, in fairness, the Claimant's estate should be allowed to participate. However, we may need to obtain Bankruptcy Court authority, because such payments are not specifically allowed by the current language of the P.I. Trust. We will try to obtain this authority but, as the Trustee, we are not in a position to pursue the matter further if the requested authority is not obtained. For such claims, please use a paper claim form, because the electronic system may not accept the claim due to the lack of an SSN.
- Q2. The Claimant is deceased and there is a probate estate opened for his/her estate, with a personal representative having been appointed. On the Claim Form, when the relationship between the person submitting the Claim Form and the deceased Claimant is requested, what should I put down?
- A. Put down either "Representative", or the relationship if there is one.
- Q3. I represent a Claimant who used opioids that I believe were manufactured by the Debtors but are not on the list provided by the Settlement. What should I do?
- A. Please submit the Claim Form, naming the opioids and providing proof of their use. We will then research the issue and try to determine if there is a connection between the opioid product and one or more of the Debtors.
