## MNK FAQ

### **RE: Common Benefit Assessment**

Q: The MNK Trust in Section 2.5 on Page 19 provides that: “The PI Trust shall fund the Common Benefit Escrow by assessments of five percent (5%) of each distribution made by the PI Trust...” How will this amount be computed and when will it be paid from the Claimant distribution?

A: This amount to be computed will be based upon the **Gross Award** described on the Home Page of this website. It will be subtracted from the **Net Award** before it is paid to the Claimant.
